What Reverse Harem Is and Isn't: - YES - Reverse Harems always include one main female character and more than 3 men that are all love interests. o NO - Two men is considered a menage, so that's not technically a reverse harem. There's not really an upper limit for a harem (I've read one where there were 11 guys!), but the more ...

My one piece of advice: Never kiss a stranger. See, I kind of kissed this sexy man at the bar on a dare once, and it turns out he's a Royal Fae destined to be my mate. Now I've been dragged to the Elemental Fae Academy to control the powers I unlocked that night. So kissing? Yeah, that won't happen again. Nope. Lesson learned. Except, I kind of kissed Titus, too. And well, now, I'm in a world of trouble. I keep burning things down, flooding dorms, and I've attracted the campus mean girl brigade. This Fae Realm is a nightmare come to life. Truly. But there are dreams here, too. Sexy ones. And they're in the form of five Elemental Fae mentors. They're supposed to help me control my powers, but who's going to keep the elements from controlling me? Note: This is a medium burn reverse harem paranormal romance, and book one of the Elemental Fae Academy trilogy.

Chandler:It was supposed to be just sex. Thoroughly satisfying, mindblowing, sweaty, animalistic love making. Just a week, though. We both agree to the no strings attached arrangement. I give Amy the best week of her life, show her what it's like to be with a real man. And since she's my old best friend, I go a step further and give her the full Casanova Experience. Dancing out on the town. I'm wining and dining her. Giving her VIP tickets to my basketball games. She thinks I'm just doing her a favor to make up for her past five years of shitty relationships. She thinks I haven't been obsessing over her for the last five years. She thinks when I take her against a public bathroom wall, I'm not thinking about committing to her for life. She's wrong. Now she's telling me I'm the best she's ever had. There's just one problem. Thought we have a history as friends, she has no idea about my past. “Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain.”—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.
