Web Usability 2 0 Lusabilit Che Conta
At the Oz-IA 2008 Conference in Sydney, I gave a talk about the different ways information on the web can be identified and found. The talk included the findings of a recent survey into the use of Web 2.0 tools, which suggest that a far smaller percentage of the general community use web 2.0 tools than we sometimes expect, and those who do use them, do so much less often.

The Directive uses the four principles of the Web Content Accessibility Guidelines (WCAG) 2.0, requiring that public sector organisations across the EU take steps to make sure their websites are "Perceivable, Operable, Understandable, and Robust. So again, by meeting the WCAG 2.0 AA you will also comply with the EU Directive.

What is the law on accessibility? - Web Usability

Central to WCAG 2.0 is the notion of technological neutrality, since this will allow the guidelines to be applied to all current and future web technologies. In conjunction with this approach, the WCAG Working Group introduced the concept of "accessibility-supported" and the associated requirement that only accessibility supported ways of using technologies can be relied upon to satisfy ...

WCAG 2.0 and Accessibility Supported | Web

Usability

Web Usability definition and components Web Usability includes a small learning curve, easy content exploration, findability, task efficiency, user satisfaction, and automation. These new components of usability are due to the evolution of the Web and personal devices.

Web usability - Wikipedia

Web usability is the one element that makes the difference between an effective website and one that is disregarded without a second thought. All visitors need to have a pleasurable experience on a website to continue to interact with it, and good web design is the key to achieving this.

Web Usability 2 0 Lusabilit Che Conta

As so many discussions about Web 2.0 focus on the technology and methods, it is often forgotten the most important part, usability, the experience of the user. Web 2.0 has

brought technologies that can be used to create a more interactive and better experience for the customer. Some of the technologies that have been developed include RSS (Really Simple Syndication) and Ajax. Ajax is a web technique that makes pages feel more responsive, making pages more functional and faster.
